Dear Mrs. Sheehan,

Thank you for your Email. I looked at your attachment. I disagree with most of the explanations you have given. Some items are just wrong (e.g. no sink or lights in kitchen island), no additional cupboards), some items I disagree because they just changed sides (e.g. dressing room, walls and cupboards), some items need further details (material on sliding door). In fact the only item I agree is item 2 – sliding aluminium door in the bedroom. Please see my comments to your drawings respectively.

I ask you to set up a meeting to clarify the matter. Please arrange the meeting via my sister Catrin.

Thank you.

Subject: Additional Work Komashia 7 - your Email dated 6 June2008[Scanned]

Dear Mrs. Karass,

My sister Catrin Koring forwarded your Email dated 6 June 2008 regarding additional work at our house Komashia7. Thank you for your pdf file with a list of cost for additional work. Unfortunately I am not able to identify all of the items listed on your document. The items are listed on a high level and I like to ask you to specify the items in more details in order to take a decision.

Please find attached Excel spread sheet. I have listed the items of your document and wrote respective questions next to the item. There is enough space between each item in order for you to write your comment(s).

I will be in Cyprus the week from 25 July until 1st of August. Maybe we can meet then and discuss the items. You may also contact me by Email any time.

Please note that I am now a part owner of the villa. It would be helpful, if you mark the documents with "Additional Work First Floor" in order to distinguish between my sisters Ground Floor changes and my changes.

Thank you for your help.

With kind regards

Axel Baudach
